KEY RISKS

You should be aware that –

- The value of your investment, and the distribution payable, may go down as well as up.
- The return of the Fund is not guaranteed.

Equity Market Risk

The performance of the Fund is subject to the volatility of the stock market which is influenced by the changes in the economic and political climate, profit rate, international stock market performance and regulatory policies. The movement of the value in the underlying investment portfolio will affect the NAV of the Fund. Any downward movement of the value will negatively impact the NAV of the Fund.

Please refer to **Section 3.5** of the Master Prospectus for further information on product specific risks.

Stock Specific Risk

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the fund's NAV.

Please refer to **Section 3.5** of the Master Prospectus for further information on product specific risks.

Equity-related Securities Risk

The value of the equity-related securities depends on the value of the underlying equities that the securities are related to. Any upward movement in the value of the underlying equities may result an upward movement of the value of the respective equity-related securities, and vice versa. Hence, the movement of the value of the equity-related securities will affect the value of the Fund.

Please refer to **Section 3.5** of the Master Prospectus for further information on product specific risks.

Shariah Status Reclassification Risk

This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SAC, the Shariah adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. In such an event, the Fund should :-

- (a) dispose of the securities within one month if the value of the securities exceeds or is equal to the investment cost on the date of announcement of the List of Shariah-compliant securities by the SAC. The Fund is allowed to keep dividends received and capital gain from the disposal of the securities up to the date of announcement of the List of Shariah-compliant securities by the SAC. However, any dividends received and excess capital gain from the disposal of Shariah non-compliant securities after the date of announcement of the List of Shariah-compliant securities by the SAC should be channelled to baitulmal and/or approved charitable bodies;
- (b) hold the respective securities if the market price of the said securities is below the investment cost, until the total subsequent dividends received (if any) and the market price or value of the securities is equal to the cost of investment at which time disposal has to take place within a month of attaining investment cost; or
- (c) dispose of the securities at the price lower than the investment cost which will result the decrease in the Fund's value.

Please refer to **Section 3.5** of the Master Prospectus for further information on product specific risks.

Dividend Policy Risk

This is a risk particular to the fund which has heavy emphasis on high yield dividend stocks. Such a risk may occur when fundamentals of the company's business deteriorate or if there is a change in the dividend payout policy resulting in a reduction of the dividend to be paid by the company. This risk may be mitigated by investing mainly in companies with a consistent historical record of paying dividends, strong cash flow, or operating in fairly stable industries.

Please refer to **Section 3.5** of the Master Prospectus for further information on product specific risks.
